#### Medical Declaration

On march 3rd, 1999, Transport Canada and the U.S. federal Highway administration (FWHA) entered into a reciprocal agreement regarding the physical requirements for a Canadian driver of commercial vehicle in the U.S, as currently contained in the federal Motor carriers safety regulation, part 391.41 et seq, and vice-versa. The reciprocal agreement will remove the requirement s for a Canadian driver to carry a copy of a medical examiners certificate indicating that the driver is physically qualified to drive(In effect, the existence of a valid driver's license issued by the province of Ontario is deemed to be a proof that a driver is physically qualified to drive in U.S.) however, FHWA will not recognize an Ontario license if the driver has certain medical conditions and those conditions would prohibit them from driving in the U.S.

I, certify that I am qualified to operate a commercial motor vehicle in the United States. I further certify that:

- A. I have no clinical diagnosis of diabetes currently requiring insulin for control.
- B. I have no established medical history or clinical diagnosis of epilepsy.
- C. I don't have impaired hearing.(A driver must be able to first perceive a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid, or does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz,1000 Hz, or 2000Hz with or without a hearing aid when tested by an audiometric device calibrated to American national standard Z24.5-1951).
- D. I have not been issued a waiver by the province of Ontario allowing me to operate a commercial motor vehicle pursuant to section 20 and 22 of the Ontario regulation 340/94.

I further agree to inform SOMAL TRANSPORT	, should my medical status change
or if I can no longer certify conditions A to D,
